

HCEDESIGN GROUP

HCE -Hartwig Consulting Engineers- is an engineering consultancy specialising in Civil Engineering, Industrial Facilities, Infrastructure, Energy and Resources. The basis for our worldwide projects is Hamburg, Germany. We design, check and supervise national and international projects. Many notable customers rely on us and the patents developed by our company.

We are looking for a

(Junior) Site Manager (m/f/d)

Are you a civil engineer who already gained some experience in project management and would like to be responsible for a great variety of national and international projects? Then come join our team:

Your tasks

- Site and Project Management in Germany and Europe (Infrastructure, Energy and Civil Projects)
- Daily supervision of site construction works (reinforced concrete works, earth works, roads, piling and other civil constructions)
- Detailed documentation including daily and weekly reporting
- Organisation of site meetings
- Approval and acceptance of construction
- Consistent communication with all involved parties
- General project management tasks

Your profile

- Degree (B.Sc./B.Eng./M.Sc./M.Eng. or equal) in Civil Engineering
- Good command of both German and English (written and spoken) is mandatory
- Willingness to travel nationally and internationally
- Motivated, proactive team-player
- Excellent computer skills, (MS Office)
- Driving license class B
- Knowledge of additional language will be of advantage

What we offer you

- Work in an international team within a dynamic company
- Very versatile range of activities and specialisations
- Flat organisational structure, individual initiative and responsibility as well as close collaboration with the project management team in Hamburg and Szczecin
- International work environment and network

Would you like to join our team? Please submit all relevant digital documents (.pdf-files) in an email to Sophie Arps, arps@hce-design-group.com.
