

HCEDESIGN GROUP

HCE -Hartwig Consulting Engineers- is an engineering consultancy specialising in Civil Engineering, Industrial Facilities, Infrastructure, Energy and Resources. The basis for our worldwide projects is Hamburg, Germany. We design, check and supervise national and international projects. Many notable customers rely on us and the patents developed by our company.

Our head office in Hamburg (DE) is looking for a

Structural Engineer (m/f/d)

Are you an experienced structural engineer who would like to be responsible for a great variety of national and international projects? Then come join our team:

Your tasks

- Static calculations of preliminary and executive designs for Structural and Civil Engineering projects
- Calculation of structural dynamics
- Static calculations of soil improvement methods, pile constructions and for the construction of excavation pits
- Support of the structural planning / CAD-Team with regard to static aspects
- Technical Support of HCE's Project Management Team

Your profile

- Degree (B.Sc./B.Eng./M.Sc./M.Eng. or equal) in Civil Engineering
- Good command of German and English (written and spoken) is mandatory
- Excellent computer skills, (RFEM, MS Office)
- Motivated, proactive team-player

What we offer you

- Work in a dynamic company
- Versatile range of activities and specialisations
- Flat organisational structure, individual initiative and responsibility as well as close collaboration with the management team
- International work environment and network
- Hands-on work experience due to close collaboration with HCE's construction management

Would you like to join our team? Please submit all relevant digital documents (.pdf-files) in an email to Sophie Arps, arps@hce-design-group.com.
